## How? Where? And When? – All You Need To know About ECA (Educational Credential Assessment)

*Novus is an ICCRC registered firm that is able to facilitate your migration to Canada within the foremost effective approach. we have a tendency to even have ranked amongst the foremost effective Immigration Consultant.*

### **ECA For Express Entry Program**

Getting an ECA of your degree, diploma, or certificate is necessary for education gained outside Canada, as they have points which are added to CRS scores. Now ECA is basically a report given by an independent body, which evaluates your education. Also under the Express Entry Program, the ECA report helps in generalizing whether the Course, Degree or Diploma has any Canadian level equivalency or not.

However, the assessment does not guarantee any job or license to practice but reflects your eligibility under Federal Skilled Worker Class (FSWC). In case of a primary applicant or the accompanying spouse or common-law partner, one can earn points for their qualifications as well.

There are organizations and bodies recognized by IRCC (Immigration, Refugees and Citizenship Canada) for such assessments:

Comparative Education Service – University of Toronto School of Continuing Studies (CES)

International Credential Assessment Service of Canada (ICAS)

World Education Services (WES)

International Qualifications Assessment Service (IQAS)

International Credential Evaluation Service (ICES)

### **Why WES Is So Popular?**

World Education Service is a non-profit organisation and the analysis of one's ECA for Immigration, Refugees and Citizenship Canada (IRCC) takes about thirty-five (35) business days after they receive, review, and accept all required documents along with fees, which is the fastest among all.

The report given by WES is authentic where the applicant's authenticated documents are received directly from the institutions that issued them and are sent back for further verification. The report given by WES helps in strengthening the hiring practices in the field most suitable according to the applicant's report.

A profession of your choice- (Legal practice in Canada) (NOC 4112.1)

There are different designated organizations for your assessment of primary occupation. However in the field of Law, the assessment of one's Educational Qualification through WES would not recognize your degree as a professional degree, but as a Bachelor's degree of 4 years, whereas in such cases a positive response from IQAS International Qualifications Assessment Service can be expected but it will take longer.

Particularly with respect to law there are foreign trained lawyers who do not get to practice in Canada, because of unrecognized credentials.

For that reason, the National Committee on Accreditation has created a re-certification process that evaluates law credentials obtained from outside of Canada and to give them an opportunity to prepare for Canadian Bar Exam and also to meet the national standards for legal practitioners in Canada.
