### There are plenty of rewards better than CLS.

I know this RuneScape gold isn't the type of answer you're looking for and if someone knows some intricate way I am unaware of I invite them to post it. However from my own experience with these levels, it ended up being much more effective to simply bite the multi-million price tag instead of trying to scrape every piece of GP I could out of the affair.

That I would have to say Eagle kite because CLS stinks that much. Aside from PvP it has pretty much no use, being outclassed by other items (usually rapier) in every situation. Bandos is arguable - maul is far better to damage/time however CLS allows you to tank with a shield.

In case Jad is the only thing you will ever use Eagle kite for, it is really not worth it. There are plenty of rewards better than CLS. I wouldn't be using it for Jad, definitely for different things. I have a rapier, incidentally. That's why I was trying to choose the cls. If it's not that much better than the usual rapier in regards to bossing I can get it after the protector.

Hey guys - I understand there is a load of these type of threads, so I was able to answer them myself some time ago, but I frankly don't have a clue what is happening, what changes have happened, what's good/bad/nooby, etc.. .

I simply bought membership a couple of days back, persuaded by a friend and the Mad May thing, and when I actually got on to some member's world I realized I did not have a clue what to do. Ever since that time I've completed the mandatory farming functions, slayer missions, and hint scrolls - but today I am really cheap School RS Gold running out of things to do in the other three and a half weeks of this membership period.
